

Morris & Broms, LLC

Quality Policy & Management Commitment

At Morris & Broms we recognize that a customer focus is at the core of every successful business. The success of our customers is essential to the success of our company. Therefore, in order to assure customer satisfaction it is the policy of Morris & Broms to provide competitively priced, defect free goods and services which meet or exceed our customer's requirements. We will accomplish this by establishing and maintaining an environment which encourages our employees to pursue the highest level of quality and productivity resulting in economical production costs by minimizing rework, repair and replacement of noncompliant parts.

To execute this policy and nurture a culture of continuous improvement, the owners of Morris & Broms will establish, maintain and continually improve an effective quality management system in compliance with ISO 9001:2008. Furthermore, we believe that quality extends to the health, safety and protection of our employees, the safeguarding of our environment and diligent adherence to statutory, regulatory and contractual requirements.
